Flexible, modular design
built with comfort and community in mind.

FAMILIES OF SEATING

DESIGN INSPIRATION

During observations at numerous clinics and hospitals, researchers noticed the way patients' families tended to gather and create their own spaces in the waiting room. The traditional waiting room lineup of chairs around the perimeter often makes this community creation difficult. In response to this need, the Neighbor™ family of seating offers chairs, tables and couches that can be arranged to foster impromptu spaces. With high backs and a variety of components, the Neighbor collection allows waiting rooms to be divided into separate, more intimate spaces. Award-winning designer, George Simmons, created the simple, rectilinear lines of Neighbor lounge seating make it a comfortable, but not overly contoured solution – allowing people to use the pieces in a variety of postures. Pre-assembled seating and table units are available, as well as custom modular buildups to meet specific needs.

FEATURES AND BENEFITS

VERSATILITY Modular units are created by selecting a base and the appropriate number of seat, table and armrest units to fill the base. Two-tier tables are available in narrow, wide and corner models.

DURABLE Legs and base feature a corrosion-resistant powdercoat paint finish.

AESTHETICS The distinctive back design is set slightly away from the seat for easy cleaning. Units are available with a straight, armless back or a wrap back – in low- or high-back styles. Multiple fabrics can be specified on an individual unit to create additional visual interest and coordinate with other pieces in the environment.

STRENGTH Legs and base are constructed with steel tubing and steel plates for structural integrity.

RENEWABLE Each unit can be reduced to components, so it can be reconfigured or refurbished in the field.

ACCOMODATING Bariatric approved models are available in benches, armless, straight-back, and wrap-back seating to accommodate patients or visitors.

BENCH

This simple, modern silhouette provides a flexible seating option. Available in single, two-seat, three-seat and corner models, with and without back attachment.

OTTOMAN

Ottomans are available in single and double sizes and make great companion pieces to the rest of the Neighbor family. The single ottoman is equipped with two swivel casters and two legs. The double ottoman features four non-locking casters.

NEIGHBOR™
