

Universal Lateral with **c:scape™ pull**

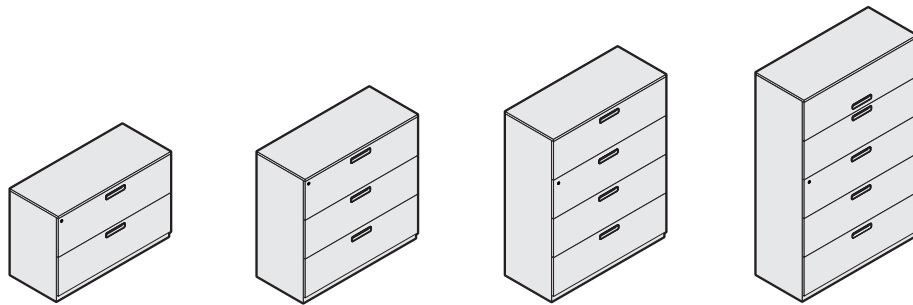

**Steelcase**

The c:scape pull option on Universal lateral files offer a high-capacity storage solution that maintains the aesthetic continuity within c:scape environments.

Universal lateral files take advantage of those “in-between” spaces by using storage to define space and offer groups a destination where they can connect quickly, debrief about their last meeting or take a quick phone call.

## Features:

- c:scape pull option matches c:scape’s aesthetic and provides visual continuity throughout the space. Pulls have the same finish options as c:scape: platinum, polished chrome, arctic white gloss, or black gloss.
- All features and options available on standard Universal laterals apply.
- Proud drawer fronts offer a clean visual aesthetic throughout the space.
- Universal Storage offers durability and quality. Group storage built to last through a lifetime of moves, changes and usage.
