

AUDIO VISUAL PLANNING GUIDE

Multipurpose Spaces

- Multipurpose Room
- Café Commons

Huddle Spaces

- Huddle Room – 3 Person
- Huddle Room – 6 Person

Meeting Rooms

- Small Meeting Room
- Large Conference Room
- Board Room

There are many concerns to consider when planning collaboration spaces. Here are a few key questions to ask:

SITE PREPARATION

What kind of infrastructure do you have to work with? Will the room(s) require cabling upgrades or renovation?

SIZE

What footprint does each type of meeting space require and how can you maximize your real estate? Can you offer a variety of meeting spaces, small enclaves to larger meeting rooms, within the floorplan.

TYPES OF COLLABORATION

Do you have the right technology to support different types of collaboration such as generative (brainstorming), evaluative (reviewing/sharing) and informative (coordinating/planning)?

FURNITURE HEIGHT

Should the furniture to be sitting or standing height? Or would select spaces work well as a lounge application?

ACCESSIBILITY

Will the technology be wireless or do you want participants to plug in. How can you make it easy to use?

SECURITY

Is security important? Should participants access the technology through HDMI or VGA connections to enhance security?

ACOUSTICS

What kind of sound mitigation is necessary and what kind of microphones and speakers are needed to ensure all participants are heard?

LIGHTING

How can you create a comfortable environment while also making participants look great in a video call?

SIGHT LINES

Can the camera be positioned to ensure that everyone is visible and will the camera be able to track active participants?

PRIVACY

Does the room require acoustical or visual privacy?

FAR END EXPERIENCE

Is the far end of a remote meeting equipped with the same level of tools to maintain a high level of user experience?

SCHEDULING

How will the room be managed? Will it be bookable or available on a first come first serve basis?

UTILIZATION

Would it be helpful to monitor utilization of the meeting room spaces?

SERVICE

How can you keep the technology optimized and functioning properly?

AUDIO VISUAL & TECHNOLOGY PRODUCTS & SERVICES

Waldners is the only dealer
with numerous established
A/V & Technology
integration partnerships,
Allowing us to find the perfect
solution at the right price for
you.

PRODUCTS & SERVICES

- Wireless connections of data to LCD/Plasmas

MULTIPURPOSE ROOM

Waldner's

Footprint:

30' x 30' | 900 sq. ft.

Seats:

32-60

Budget Range:

Technology: \$120,000 - \$150,000

Furniture: \$35,000 - \$45,000

** Please note: All pricing is conceptual and is based upon the wide range of product choices available. In addition, each space has unique considerations; acoustics, buildout, labor costs, infrastructure etc... For a tailored quote, please contact our AV consultant [Rob Sangemino](#).*

Concept

This space provides ultimate flexibility for company wide meetings, presentations, seminars and training.

Multiple furniture and technology applications allow for a wide array of uses and configurations. Layouts include formal presentation, conference discussion and team collaboration.

An assistive listening system provides audio support for the hearing-impaired.

Formal

For company-wide meetings, formal presentations or training, the layout provides optimal sightlines using dual 70" flat screens for near end and far end viewing of content. Technology includes microphones for speech reinforcement, pan/tilt/zoom camera(s), integrated codec and digital sound processing.

Interactive

Mobile tables and chairs can be reconfigured from presentation to group work. Four groups have access to the 70" dual displays and the two 60" flat screens on stands.
